

## CR Grant Assist Program

The City of Campbell River Economic Development team has created a new program - CR Grant Assist. This program will allow small businesses, business groups, start-ups and innovators to access a grant writer who will be able to provide up to 5 hours of grant application review and content development.

Maria Temolin of Momentum Writing and Consulting is available to help local businesses navigate the grant application process during this unprecedented time. She will provide expertise and guidance to businesses seeking financial support to help alleviate the challenges posed by COVID-19. Maria will help to ensure your business meets eligibility criteria, has clear objectives and develops a complete workplan that aligns with appropriate outcomes. You will have a strong, organized and compelling proposal that clearly communicates the values and mission of your business.
