

Join the Main Street Makeover!

The Town of Caledon is working to revitalize our commercial areas. If your commercial property is located in one of our villages, you may be eligible for grants to offset the cost of a renovation project.

What is Main Street Makeover?

Main Street Makeover is all about the beautification and revitalization of business areas in Bolton, Caledon East and the six villages. Grant programs (through the Community Improvement Plans) are available to commercial landowners and tenants, to encourage property improvement projects that support making Caledon's business areas safe, beautiful and environmentally friendly.

Who are the grants for?

Industrial or commercial property or business owners located within Caledon's Community Improvement Project Areas.

Why apply?

The grants can offset the cost of your renovation, the process to apply is easy and the result is an improved main street. It's a win, win, win!

Contact our team for more information about the grants and to see if your project may qualify.
