

Marketing

Both projects were listed on our City of Barrie events page which provided all the information about the event. Any radio or social media marketing pushed people back to the events page for more information. For costs savings we did not create websites for the projects and rely solely on our events page and social media.

Over the years there have been many driver shortages including AZ and DZ licensed drivers along with public transit and school transportation drivers. The Commercial Trucking & Driver Job Fair offered an opportunity for employers looking to hire to meet the community and speak directly with job seekers. Thank you to all our community partners & local businesses for making this event possible: <https://lnkd.in/gnH9RQYM>

🎉 There was a terrific turnout at the Commercial Trucking/ Driving Job Fair Wednesday night!

We, along with Invest Barrie, were happy to see the participating employers engaged in discussions about their organizations' opportunities with the many job seekers who attended.

A big thank you to the local employment offices who were able to attend as well.

Last week's Construction Industry Job Fair was a huge success! 421 job seekers came through the doors, eager to connect with our local companies. This event provided a dynamic platform for employers to showcase their available positions, fostering direct engagement with the public. We look forward to bringing together job seekers and employers at future events.
