

We are thrilled that our beloved warbler (Scout) and the artistic county map have resonated with so many of you. To help you use these graphics while preserving their integrity, we've put together some guidelines and an easy process for requesting permission if you'd like to include them in specific projects relating to promoting tourism and economic development in Norfolk County.

Please reach out to request the use of our visual identity graphics and terms of use. More information can be found on our website at [www.norfolkbusiness.ca](http://www.norfolkbusiness.ca)
