Informational Materials

Build, Scale, and Invest in Timmins

\$2B (USD) Zero-Carbon Mine of the Future

Home of the **world's second largest nickel reserve and resource**, with large-scale carbon capture storage potential.¹

Over 70M Ounces of Gold Produced

The Timmins-Porcupine Gold Camp is one of Canada's greatest goldfields, having produced **over 70M ounces of gold worth over \$100B (CAD)**.²

Diversified Mineral Exploration

Increased exploration of gold, base metals, **critical minerals, and rare earth elements** driven by strong global demand and the region's rich geological potential.

World's Deepest Base Metal Mine

9,889 ft
below sea level

Honouring the Past, Leading the Present, and Transforming the Future

Mine for the future in one of the richest mineral-producing areas in the Western Hemisphere.

Ottawa
Toronto

Mining-Driven Ecosystem

Sophisticated supply and services cluster, and a mining-ready workforce supported by specialized education and training.

International Connectivity

Access to a major highway network with 9 U.S. border crossings within a day's drive, reliable freight rail services, and multiple daily flights to Toronto.

Increased Exploration Activity

The Timmins District saw an **increase of 115%** (from 2022) in exploration assessment work filed **valued at \$56.6M (CAD)** and 181 active exploration permits.³

World-Class Infrastructure

Availability of **competitively priced industrial lands**, green power, alternative energies, and an extensive fibre optic network.
